

ARBORCHEM

TANK CLEANER

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of anionic surfactants, ammonia and sequestering agents 100%
All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN DANGER

DO NOT FREEZE

Causes severe skin burns and eye damage. Causes serious eye damage. Read label before use. Keep container tightly closed. Keep only in original container. Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Wash contaminated areas thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/ protective clothing/ eye protection/ face

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Immediately call a poison center, doctor or physician. Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING (or hair): Take off immediately all contaminated clothing. Rinse with water or shower. Wash with plenty of soap and water for several minutes. Immediately call a poison center, doctor or physician.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting unless advised otherwise by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

TANK CLEANER is a high pH tank and equipment cleaner that thoroughly penetrates, cleans and removes pesticide residue and hard water deposits from sprayer tank walls, hoses and nozzles.

TANK CLEANER is recommended for all spraying equipment and especially for fiberglass and poly tanks that may be harder to completely decontaminate than stainless steel.

DIRECTIONS FOR USE

Always follow the directions on all pesticide labels.

If the label does not specify equipment cleaning instructions, use the following method:

Large Volume Sprayers: Empty the spray tank completely, preferably in the field. Rinse all interior areas of the spray tank with clean water.

Add **TANK CLEANER** to the rinse water in the tank and agitate for 15-20 minutes. Purge hoses, lines, screens and nozzles for at least one minute or remove and clean separately. Some pesticides can be slow to release from equipment surfaces, and soaking for 12-24 hours may be necessary. After cleaning, empty the system and thoroughly flush all components with clean water.

Hand-Held and Back-Pack Sprayers: Use approximately one ounce of **TANK CLEANER** per gallon of water, agitate thoroughly and pump through lines and nozzle, drain and follow with clean water rinse.

SPECIAL PRECAUTIONS / RINSATE TESTING: The use of **TANK CLEANER** or other tank cleaners does not guarantee removal and/or neutralization of all residues. Some pesticides, such as 2, 4-D and dicamba, may leave persistent or hard-to-remove residues.

Many variables exist, which make consistent tank cleaning difficult (i.e., water quality, use of cleaning equipment, quantity and type of residue, age and condition of spray tank, spray lines, nozzles etc.).

In order to ensure that all residues have been removed, apply a sample of the rinse water to sensitive broadleaf plants and after sufficient time, observe for wilting or severe stress.

If stress occurs, repeat cleaning process and retest as above.

USE RATE

TANK CLEANER is effective at dilution rates up to 1:400. One quart of **TANK CLEANER** will treat up to 100 gallons of water.

STORAGE AND DISPOSAL

Storage: Store locked up. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. DO NOT FREEZE.

Disposal: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local/ regional/ national/ international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

WARRANTY: Arborchem warrants that this product, when used as directed, is reasonably fit for use as designated on this label. ARBORCHEM MAKES NO WARRANTY OF FITNESS OR MERCHANTABILITY. Arborchem's maximum liability for breach of this warranty shall not exceed the purchase price of this product. In no event shall Arborchem be liable for indirect or consequential damages. This warranty shall not be changed by oral or written agreement unless signed by a duly authorized officer of Arborchem.
